January Session- Exploration of Current Issues Healthcare and Education

Our January Session will give us the opportunity to dive into two of the hottest topics locally and nationally- healthcare and education. Our day will kick off with a focus in local education trends. Fargo, West Fargo and Park Christian School Superintendants will join us for a panel discussion, followed by a keynote speaker. We will then shift our afternoon focus to the area of healthcare with a panel discussion followed by breakout discussion sessions, please bring your questions, thoughts, opinions and be ready for an interactive day!

February Session- Hidden Gems Exploration of Local Business and Economy

Get ready for an action packed day! This unique session will give you the opportunity to visit some "hidden gems" in our community. These gems contribute greatly to the local economy, while many provide important services to those in need. Get ready for an inside look into their operations by touring their facilities and visiting with their leaders.

This session is also a great opportunity to get to know some of the classmates you haven't had the opportunity to network with! You will be put in small groups You will be provided a list of your locations prior to the session, and expected to elect a driver for the group. One group member will also take on the role of photographer and recorder, so be prepared to bring back information to share with your classmates.

THANK YOU PROGRAM SPONSORS!
